SUMMARY

Detail-oriented Data Analyst and Business Analysis professional with experience supporting data products, reporting solutions, and business processes. Strong expertise in SQL, Python, Power BI, and MS Excel with hands-on experience in data validation, reconciliation, stakeholder requirement gathering, and UAT support. Proven ability to translate business requirements into functional data insights and support high-quality analytics delivery. Seeking opportunities in Finance / Investment Banking Data Analytics.

SKILLS

Data Analysis & Visualization: Power BI, KPI Dashboards, MIS Reporting, Excel

Programming: Python (Pandas, EDA), SQL

Databases: SQL, SQLite

Version Control & Tools: Git, GitHub, Jupyter Notebook

Business Analysis: Requirement Gathering, Functional Documentation, UAT Support, Data Validation

Analytics: Statistical Analysis, Trend Analysis, Reconciliation

Soft Skills: Analytical Thinking, Logical Reasoning, Communication, Decision Making, Time Management

PROFESSIONAL EXPERIENCE

Associate - WNS Global services

Dec 2024 - Jan 2026

- Analyzed large operational datasets to identify process gaps and improve turnaround time.
- Prepared MIS and performance reports using MS Excel (Pivot tables, formulas) to support business decisions.
- Performed data validation, quality checks, and reconciliation to ensure accuracy of reporting outputs.
- Collaborated with stakeholders to understand reporting requirements and implement workflow improvements.
- Supported system readiness and enhancement activities by validating outputs and documenting processes.
- Delivered actionable insights that improved customer experience and operational efficiency.

Full Stack Development python internship, V3 Data Solutions

Jan 2022 - April 2022

- Built data-driven applications using Python, SQL, HTML, CSS, Bootstrap, and JavaScript.
- Extracted and transformed datasets using SQL for analytical reporting.
- Cleaned and analyzed data using Python for business insights.
- Created dashboards and supported documentation of data workflows.
- Assisted in backend data processing and testing.

PROJECTS

- Amazon Sales Dashboard (Power BI)
 - Designed interactive dashboards to track KPIs and revenue performance.
 - Analyzed product-level sales trends to support business strategy.
- COVID - 19 Data Analysis (Python)
 - Cleaned datasets using Pandas and performed statistical analysis.
 - Visualized trends and insights for reporting purposes.
- Real Estate Data Analysis (Excel)
 - Conducted exploratory analysis on pricing and location datasets.
 - Generated reports highlighting investment and market trends.

EDUCATION

B. E. Computer Engineering - Pune University (2023)

Diploma in Computer - State Board (2020)

CERTIFICATIONS

- Core Python – Udemy
- Data Analysis (Learning) – Udemy
- AI Engineer – Udemy
- Generative AI Foundations – UpGrad
- Python Programming – Simplilearn

ADDITIONAL

- Hands-on with Excel, SQL, Power BI dashboards
- Strong understanding of data validation, reconciliation, and reporting frameworks
- Actively learning advanced statistics and analytics
- Creating educational content on Data Analysis
