SUMMARY

Detail-oriented Data Analyst with experience of data analysis, reporting, and business process support. Strong expertise in MS Excel (Pivot Tables, VLOOKUP, data validation), SQL, Python, and Power BI. Experienced in analyzing business requirements, improving reporting workflows, performing data quality checks, and translating business needs into actionable insights. Proven ability to collaborate with stakeholders, support system enhancements, and deliver accurate analytical outputs within timelines.

SKILLS

Data Analysis & Reporting: MS Excel, Power BI, KPI Dashboards, MIS Reporting

Programming & Analytics: Python, Exploratory Data Analysis (EDA), Statistical Analysis, Trend Analysis

Databases: SQL, SQLite

Process & Systems: Business Requirement Analysis, Data Validation, UAT Support, Documentation

Other Tools: GitHub, MIS Reporting, Documentation, Jupyter Notebook

Soft Skills: Analytical Thinking, Logical Reasoning, Communication, Decision Making, Time Management

PROFESSIONAL EXPERIENCE

Associate - WNS Global services

Dec 2024 - Jan 2026

- Analyzed large operational datasets to identify process gaps and improve turnaround time.
- Prepared MIS and performance reports using MS Excel (Pivot tables, formulas) to support business decisions.
- Performed data validation, quality checks, and reconciliation to ensure accuracy of reporting outputs.
- Collaborated with stakeholders to understand reporting requirements and implement workflow improvements.
- Supported system readiness and enhancement activities by validating outputs and documenting processes.
- Delivered actionable insights that improved customer experience and operational efficiency.

Full Stack Development python internship, V3 Data Solutions

Jan 2022 - April 2022

- Built data-driven applications using Python, SQL, HTML, CSS, Bootstrap, and JavaScript.
- Designed databases and wrote SQL queries for data extraction and transformation.
- Cleaned and analyzed datasets using Python for reporting purposes.
- Created dashboards and assisted in documentation of system workflows.
- Supported backend data processing and testing activities.

PROJECTS

- Amazon Sales Dashboard (Power BI)
 - Built interactive dashboards to visualize sales performance and KPIs.
 - Analyzed revenue trends and product performance to support business decisions.
- COVID - 19 Data Analysis (Python)
 - Cleaned datasets using Pandas and performed statistical summaries.
 - Visualized trends for insight generation.
- Real Estate Data Analysis (Excel)
 - Conducted exploratory analysis on pricing and location data.
 - Generated reports highlighting investment trends.

EDUCATION

B. E. Computer Engineering - Pune University (2023)

Diploma in Computer - State Board (2020)

CERTIFICATIONS

- Core Python – Udemy
- Data Analysis & AI – Udemy
- Generative AI Foundations – UpGrad
- Python Programming – Simplilearn

ADDITIONAL

- Hands-on with Excel, SQL, Power BI dashboards
- Actively learning advanced statistics and analytics
- Creating educational content on Data Analysis
