SUMMARY

Detail-oriented Data Analyst and aspiring Database Developer with hands-on experience in SQL, Python, and data-driven application development. Strong foundation in database design, data extraction, validation, and reporting. Experienced in collaborating with cross-functional teams, troubleshooting data issues, and documenting technical processes. Seeking an entry-level PL/SQL / Database role to contribute to performance optimization and reliable data solutions.

SKILLS

Databases: SQL, SQLite

Programming: Python, PL/SQL, Django

Data Analysis: Power BI, Excel, EDA

Version Control & Tools: Git, GitHub, Jupyter Notebook

Database Operations: Data Extraction, Transformation, Validation, Debugging

Process & Systems: Requirement Gathering, Technical Documentation, UAT Support

Soft Skills: Analytical Thinking, Logical Reasoning, Communication, Decision Making, Time Management

PROFESSIONAL EXPERIENCE

Associate - WNS Global services

Dec 2024 - Jan 2026

- Analyzed large operational datasets to identify process gaps and improve turnaround time.
- Prepared MIS and performance reports using MS Excel (Pivot tables, formulas) to support business decisions.
- Performed data validation, quality checks, and reconciliation to ensure accuracy of reporting outputs.
- Collaborated with stakeholders to understand reporting requirements and implement workflow improvements.
- Supported system readiness and enhancement activities by validating outputs and documenting processes.
- Delivered actionable insights that improved customer experience and operational efficiency.

Full Stack Development python internship, V3 Data Solutions

Jan 2022 - April 2022

- Designed relational databases and wrote SQL queries for data extraction and transformation.
- Developed backend logic using Python integrated with databases.
- Cleaned and analyzed datasets to support reporting and application functionality.
- Assisted in testing, debugging, and documentation of technical workflows.
- Supported database-driven applications ensuring data integrity and performance.

PROJECTS

- Amazon Sales Dashboard (Power BI)
 - Extracted data using SQL and built KPI dashboards.
 - Optimized queries for faster reporting performance.
 - Analyzed sales trends and product metrics.
- COVID - 19 Data Analysis (Python)
 - Cleaned datasets and performed statistical analysis.
 - Generated insights using Pandas and visualizations.
- Real Estate Data Analysis (Excel)
 - Performed exploratory analysis on pricing datasets.
 - Created structured reports highlighting market trends.

EDUCATION

B. E. Computer Engineering - Pune University (2023)

Diploma in Computer - State Board (2020)

CERTIFICATIONS

- Core Python – Udemy
- Data Analysis (Learning) – Udemy
- AI Engineer – Udemy
- Generative AI Foundations – UpGrad
- Python Programming – Simplilearn

ADDITIONAL

- Hands-on experience with SQL-based data processing
- Familiar with debugging and performance tuning basics
- Actively learning PL/SQL procedures and query optimization
- Strong problem-solving and documentation skills
