SUMMARY

Detail-oriented Data Analyst with Computer Engineering background and hands-on experience in data processing, cleaning, visualization, and reporting using Python, SQL, Excel, and Power BI. Experienced in writing efficient code for data transformation, debugging data issues, and creating dashboards to deliver actionable insights. Strong foundation in statistical analysis, exploratory data analysis, and business reporting. Passionate about improving data quality and supporting data-driven decision making.

SKILLS

Data Analysis & Programming: Python, SQL, MS Excel, Power BI

Analytics: Data Cleaning & Transformation, Exploratory Data Analysis (EDA), Trend Analysis, Statistical Analysis, Data Validation & Quality Checks

Visualization Tools: Power BI, Excel charts

Other Tools: GitHub, Documentation, SQLite

PROFESSIONAL EXPERIENCE

Associate - WNS Global services

Dec 2024 - Jan 2026

- Analyzed operational datasets, cleaned data, and generated MIS reports using Excel to track trends and performance.
- Resolved data inconsistencies, documented processes, and delivered insights to improve turnaround time and customer experience.

Full Stack Development python internship, V3 Data Solutions

Jan 2022 - April 2022

- Performed data extraction, transformation, and analysis using Python and SQL; created basic dashboards and reports.
- Supported debugging, data validation, and visualization for real-world datasets.

PROJECTS

- Amazon Sales Dashboard (Power BI)
 - Developed interactive dashboards to analyze sales performance and marketing impact
 - Performed data transformation and trend analysis to identify product insights
- COVID - 19 Data Analysis (Python)
 - Cleaned datasets using Python
 - Applied EDA techniques and visualized patterns for decision support
- Real Estate Data Analysis (Excel)
 - Performed statistical analysis and reporting
 - Extracted pricing and location-based insights

EDUCATION

B. E. Computer Engineering - Pune University (2023)

Diploma in Computer - State Board (2020)

CERTIFICATIONS

- Core Python – Udemy
- Data Analysis & AI – Udemy
- Generative AI Foundations – UpGrad
- Python Programming – Simplilearn

ADDITIONAL

- Actively creating educational content on Data Analysis on Social media
- Hands-on with Excel, SQL, Power BI dashboards
- Learning advanced statistics and product analytics
