SUMMARY

Detail-oriented Data Analyst with a Computer Engineering background and hands-on experience in SQL, Python, Excel, and Power BI. Skilled in exploratory data analysis, dashboard development, and transforming raw datasets into actionable business insights. Experienced in collaborating with stakeholders, building reports, and ensuring data quality. Actively strengthening skills in statistical analysis, automation, and cloud analytics.

SKILLS

Data Analysis & BI: SQL, MS Excel, Power BI, DAX, KPI Dashboards, Data Cleaning, Automated Reporting

Programming & Analytics: Python, Exploratory Data Analysis (EDA), Statistical Analysis, Trend Analysis

Databases: SQL, SQLite

Cloud Exposure: AWS, Google Cloud (basic), familiarity with Microsoft Fabric

Other Tools: GitHub, MIS Reporting, Documentation, Jupyter Notebook

Soft Skills: Analytical Thinking, Attention to Detail, Problem Solving, Clear Communication

PROFESSIONAL EXPERIENCE

Associate - WNS Global services

Dec 2024 - Jan 2026

- Analyzed large operational datasets to identify trends and improve turnaround time.
- Maintained 100% data accuracy while handling high-volume email-based datasets.
- Prepared MIS reports in Excel to track performance metrics and workflow efficiency.
- Performed data validation and quality checks to ensure data consistency and integrity.
- Collaborated with internal stakeholders to improve reporting and process outcomes.
- Delivered actionable insights that enhanced customer experience and operational efficiency.

Full Stack Development python internship, V3 Data Solutions

Jan 2022 - April 2022

- Built data-driven web applications using Python, Django, SQL, HTML, CSS, Bootstrap, and JavaScript.
- Designed SQLite databases and wrote SQL queries for data extraction and transformation.
- Cleaned and prepared datasets for analysis using Python.
- Created basic dashboards and reports for project tracking.
- Documented analysis workflows and supported backend data processing.

PROJECTS

- Amazon Sales Dashboard (Power BI)
 - Developed interactive dashboards to visualize sales performance and marketing impact
 - Built KPIs and summary metrics using Excel + Power BI
 - Identified product trends and revenue patterns to support business decisions
- COVID - 19 Data Analysis (Python)
 - Cleaned and transformed datasets using Pandas
 - Performed EDA and statistical summaries
 - Visualized trends using Matplotlib for data-driven insights
- Real Estate Data Analysis (Excel)
 - Conducted exploratory analysis on pricing and location data
 - Generated reports highlighting investment and regional trends

EDUCATION

B. E. Computer Engineering - Pune University (2023)

Diploma in Computer - State Board (2020)

CERTIFICATIONS

- Core Python – Udemy
- Data Analysis & AI – Udemy
- Generative AI Foundations – UpGrad
- Python Programming – Simplilearn

ADDITIONAL

- Actively creating educational content on Data Analysis on Social media
- Hands-on with Excel, SQL, Power BI dashboards
- Learning advanced statistics and product analytics
