SUMMARY

Python Developer with Computer Engineering background and hands-on experience in backend application development using Python, Django, SQL, and REST APIs. Strong understanding of OOP concepts, ORM, and database management. Experienced in data processing, debugging, and developing scalable applications. Familiar with Django REST Framework, cloud basics (AWS), and frontend technologies including JavaScript, ReactJS, HTML, and CSS.

SKILLS

Programming: Python, SQL, JavaScript

Frameworks: Django, Django REST Framework, Flask (basic)

Backend: REST API Development, OOP, ORM, Application Development

Frontend: HTML5, CSS3, JavaScript, ReactJS

Databases: MySQL, PostgreSQL, SQLite

Tools: Git, GitHub, Power BI, MS Excel

Cloud: AWS (basic)

Soft Skills: Communication, Stakeholder Coordination, Analytical Thinking, Problem Solving

PROFESSIONAL EXPERIENCE

Associate - WNS Global services

Dec 2024 - Jan 2026

- Analyzed and processed datasets using Excel and SQL, ensuring data accuracy and reporting efficiency.
- Debugged data issues, documented workflows, and supported data-driven decision making.

Full Stack Development python internship, V3 Data Solutions

Jan 2022 - April 2022

- Developed backend components using Python, Django, and SQL, and performed data processing and validation.
- Developed backend components using Python, Django, and SQL, and performed data processing and validation.

PROJECTS

- Amazon Sales Dashboard (Power BI)
 - Extracted and analyzed sales datasets using SQL
 - Built interactive dashboards to track KPIs and performance trends
- COVID - 19 Data Analysis (Python)
 - Processed and analyzed sales data and created interactive dashboards for business insights.
- Real Estate Data Analysis (Excel)
 - Performed data cleaning, analysis, and visualization using Python libraries.

EDUCATION

B. E. Computer Engineering - Pune University (2023)

Diploma in Computer - State Board (2020)

CERTIFICATIONS

- Core Python – Udemy
- Data Analysis (Learning) – Udemy
- AI Engineer – Udemy
- Generative AI Foundations – UpGrad
- Python Programming – Simplilearn

ADDITIONAL

- Strong analytical and problem-solving skills
- Experience working with large datasets and reporting systems
- Understanding of data governance and data quality practices
- Actively learning advanced SQL, Python, Azure, and Databricks
- Actively creating educational content on my Tech Learning
